

Thank You!

To all of you who have followed the proposed development in Golden Hay Field. On 20th August, Tewkesbury Borough Council Planning Committee permitted the latest amended application submitted by the promoter. Whilst plans still remain outside key policy, they contain important changes that align to the Society's aims. There are too many to list individually so here's a taste. This could not have been achieved without **your** support. **Thank You.**

To promote the protection of the heritage, enhancement of the landscape and ecology: The site contains modified plans for additional planting of trees and hedgerows plus creation of a public open space with wildflower/bulb planting.

To ensure that any developments sensitive to the village, its needs and setting & promote the protection and maintenance of the Cotswolds National Landscape: The site design has been modified with smaller garages, lower roof heights and several conditions added to ensure the design, layout and materials of the houses meet the requirements of the Dumbleton Conservation Area.

To work with the Parish Council to support its activities & policies that benefit the village: DCS has provided support to the Parish Council especially in the areas of Ecology and Planning, and we attended their public meetings to listen to villagers and understand the council's position.

To ensure the safety of the residents, public and environment in and around Dumbleton: Safer access from the development to the highway by an alternative T junction, a new footpath onto Main Street will be create safer access to the village, plus turning circles for large vehicles have been improved.

2025/2026 Events.

We have had great fun with Bird, Moth and Bat hunts again this year and would like to know what events you would like to see in the future. Please send ideas to peterst1607@gmail.com

2025 Village Calendar.

We've had some fantastic entries and would welcome more before the 31st October deadline! To submit photographs, or pre-order your 2025 calendar please email peterst1607@gmail.com
